- ▶ MEU Strasbourg is the **world's largest** and **most authentic simulation** of the EU's policy-making processes
- ▶ It has been hosted at the Louise Weiss Building, **the official seat of the European Parliament**, in Strasbourg, France, every Spring since 2007
- ▶ Each year **over 60 dedicated organisers** work to give this opportunity to approximately 180 selected participants who are **young, smart, motivated and European spirit-driven individuals** from across Europe
- ▶ During the conference, our participants not only have the opportunity to improve their decision-making, debating and cooperation skills, but they also **get the chance to gain experience in the political world** and network with other like-minded Europeans
- ▶ During the conference, a **MEUS Partners' Fair will be held** which creates a platform for participants to learn about our partners and find out how to engage in Europe's civil society

Participants' roles in the simulation*:

MEPs
77

Ministers
28

Interpreters
27

The organising team and BETA

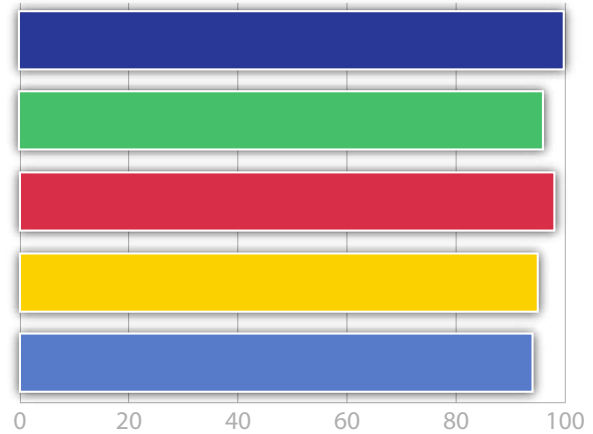

Model European Union Strasbourg is the flagship project of the **Bringing Europeans Together Association** (BETA e.V). BETA is also responsible for the project's administration and assisting its partners with the promotion of partner MEUs in different cities.

BETA e.V. is a European, politically independent, non-profit association which articulates and **promotes international understanding** by implementing political simulations of EU decision-making. By doing so, BETA does not only **offer knowledge and support** to its various partner MEUs, but also organises two simulations on its own, namely **MEU Strasbourg** and **MEU Online**.
