FOREWORD

The seventh Scholarships and Educational Programmes Fair was organised by the Institute for the Development of Education on Wednesday 19 October 2011 at the National and University Library in Zagreb. The Scholarships and Educational Programmes Fair is a unique event in Croatia where pupils, students and the general public can find out everything about scholarships and study opportunities in Croatia and abroad. Since 2005 the Fair has been organised once a year in Zagreb and has become not only the biggest event of this kind in Croatia but also a recognizable event that promotes the expansion of access to higher education and enhances the international mobility of Croatian academic community.

This year's Fair presented the biggest number of scholarships and educational opportunities so far - a total of 44 exhibitors from nine different countries presented their study programmes, scholarships and other educational services. This year the biggest number of visitors attended the Fair - more than 7,500 visitors. It is expected that through the featured programmes more than 7,700 scholarships will be awarded for study in Croatia and abroad. Furthermore, on 20 October the Online Fair was launched on the www.stipendije.info portal where Croatian citizens, regardless of their place of residence, can find information about all the exhibitors presented at the Fair.

Among the most significant novelties at this year's Fair was presenting the United Kingdom of Great Britain and Northern Ireland as the first Partner Country of the Fair. The UK's educational system is known for its excellence around the world and visitors of this year's Fair had the opportunity to talk to British exhibitors and alumni from British educational institutions. Apart from Partner Country, this year's Fair was supported by INA - *Industrija nafte* as the first Main Supporter of the Fair. By participating in this year's Fair, INA promoted the importance of investing in education and educational projects and presented its various scholarships programmes, graduate internship programme and an international competition for students.

This Fair, as all previous Fairs, would not have been possible without the support of its partners, sponsors and donors, while the successful organization of the Fair is the result of a partnership of over 40 institutions and of the engagement of numerous volunteers. We would hereby like to mention those institutions and organisations that made the Fair possible through their financial support: the United Kingdom of Great Britain and Northern Ireland and British Council (Partner country), INA (Main supporter), the Croatian Ministry of Science, Education and Sports, the Agency for Mobility and EU Programmes, the Croatian Ministry of the Family, Veteran's Affairs and Intergenerational Solidarity and the Croatian Ministry of Economy, Labour and Entrepreneurship (donor and supporting institutions), VERN University of Applied Sciences (Strategic partner), University College for Applied Computer Engineering (Academic partner) and LIDL Croatia (sponsor).

Other sponsors and partners of the Fair (the list can be as an Annex to this report) contributed with their support to the public visibility of the Fair and the acknowledgement of the Fair as an event of national importance. We would especially like to highlight that this year's Fair was held, for the first time, under the patronage of the President of Republic of Croatia.

We would therefore like to express our deepest gratitude to all those mentioned above, as well as to all the domestic and foreign exhibitors of the Fair, for their (in many cases continual) cooperation and we hope to renew our cooperation at the next Fair in 2012.

The results of the survey are listed below.

Visitors' profile

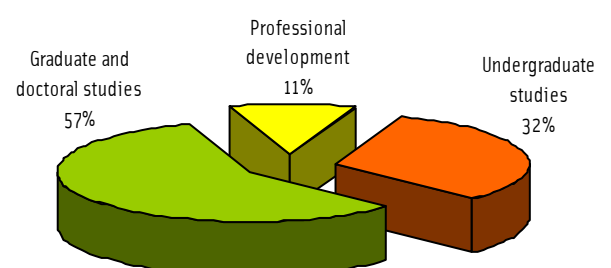

Most popular educational opportunities and scholarships

Most popular educational opportunities and scholarships with regard to level of study

Most popular educational opportunities and scholarships with regard to place of study

According to the survey results, students comprise the majority of visitors which explains why 57% of visitors are primarily interested in scholarships for graduate and doctoral studies. Furthermore, the majority of visitors are interested in opportunities for studying abroad. However, there is also an interest for study in Croatia (41% of surveyed visitors were interested in such opportunities), as well as an interest for undergraduate studies (approximately one third of surveyed visitors).

Visitor feedback on the benefits and quality of the Fair

The results of the visitor survey indicate a great need for the Scholarships Fair and its significance for the academic community and the general public. Na Sajmu će se predstaviti više od 30 uglednih ustanova iz devet zemalja. Među najvažnijim novinama ovogodišnjeg sajma bit će predstavljanje Ujedinjene Kraljevine Velike Britanije i Sjeverne Irsk kao prve zemlje partnerice Sajma. Obrazovni sustav Ujedinjene Kraljevine poznat je po svojoj izvrsnosti diljem svijeta, a posjetitelji ovogodišnjeg sajma moći će razgovarati s britanskim izlagačima i hrvatskim predstavnicima britanskih obrazovnih ustanova.

Očekuje više od 7000 posjetitelja koji će na štandovima, predavanjima, radionicama i tijekom razgovora s hrvatskim predstavnicima moći doznati sve o mogućnostima studija i stipendiranja u Hrvatskoj i inozemstvu. Više informacija dostupno je na internetnoj stranici www.izob.hr i na sajmu stipendija. IRO organizira Sajam stipendija da bi, između ostalog, upozorio kako je uloga obrazovne politike i obrazovnih ustanova da svi studenti, i oni na sveučilišnim i oni na stručnim studijima, imaju jednake izgleda za uspjeh.
